

## IRISH REBELS TURN TO GUERRILLA WAR

Clonmel Their Headquarters and Cork Force Likely to Be Split Up.

### MORE SHIPING IN DUBLIN

Campers and Summer Visitors Interfere With Operations at Howth.

DUBLIN, July 22 (Associated Press).—A general defeat for the irregulars in south Ireland is regarded now as certain in army quarters here. In numbers and fighting equipment they are declared to have proved inferior to the Free State forces, whose completely handled artillery has been able to dislodge the insurgents from any position they occupied.

Apparently the irregulars have made Clonmel their headquarters after their retreat from Limerick, and conflicts are considered possible there, as well as at Mallow and Fermoy. Though they hold Cork city their force there is not believed to be a strong one. Appraising the situation, however, the *Irish Times* today says it would appear to be unwise to underestimate the opposition the Free Staters are likely to meet.

"They can do much damage to property by guerrilla operations," it says, "and may split into marauding columns, leaving Cork to be occupied without firing a shot. Such were their tactics at Sligo, with the result that they are still at large and, in conjunction with the Mayo regulars and the remnants of the band from Donegal, constitute a menace not only to the Free State army in the west but to the whole peace loving population on which they prey. Ireland will not be safe for the men and women until the last gun and the last cartridge are taken from the hands of the last irregular."

Although normal life prevails in Dublin there has been a serious increase in ambushing, sniping and other guerrilla activities aimed at the Free State troops but frequently resulting in injury to civilians. Soldiers are frequently fired at from roofs and bridges, and a bomb was thrown to-day into the Kevin Street Technical Schools, which they occupy.

The Free State troops at Howth have been four times attacked with Lewis and Thompson guns as well as with rifles, and they are hampered in resisting attacks by the presence of numerous campers and summer visitors at that resort.

The prisoners captured in Waterford by the national army total 150, including the leader of the city brigade and members of the rebel headquarters staff. A large quantity of ammunition was obtained, together with many mines. The Free Staters lost four killed and eleven wounded.

In Limerick the rebels are reported to have lost twenty killed. While the inhabitants of Limerick were on the verge of starvation the Free Staters report having found many sacks of flour utilized instead of sandbags to fortify buildings. The rebels are said to have been driven from the most part of boys between the ages of ten and twenty-five in charge of Liam Lynch.

The capture of Castlebar, County Roscommon, which was held by 300 irregulars, was effected without loss to the Nationals, who converged on the town and shelled the rebels' headquarters when the latter refused to surrender. After an hour's bombardment the white flag was hoisted. Many of the insurgents were captured. The others fled, fighting while retreating.

BELFAST, July 22 (Associated Press).—The south of Ireland banks in Dundalk were raided by armed bands this morning and several hundred pounds sterling were carried off. Three of the raiders were captured.

Father Donellan, a parish priest, prevented the raiders making a big haul at the Munster and Leinster Bank. Although a revolver was pressed to his chest, he refused a heavy ink bottle, welded it against the raiders and otherwise resisted them. At the Hibernian Bank Miss O'Connell, a clerk, seized one of the robbers, who dragged her to the floor and struck her a blow on the cheek, inflicting a severe injury. The raiders did not molest the North of Ireland banks.

### F. P. WALSH WEARS SILK AGAINST COOTIES

Economized by Using Imitation Instead of Real Cloth.

Special Cable to THE NEW YORK HERALD. Copyright, 1922, by THE NEW YORK HERALD. New York Herald Bureau, Dublin, July 22.

Though planning to engineer a \$1,000,000 loan for the relief of Russia, and traveling to Moscow by airplane, the most expensive means of transportation, Frank P. Walsh decided to economize on a matter of \$2 when it came to cootie prevention.

Mr. Walsh was told that silk underwear was the only preventive against the Russian vermin, so he shopped assiduously to prepare himself for the journey. The price of silk is higher in Berlin than in Paris or New York and as a result Mr. Walsh decided that "ersatz" or imitation silk would have the same preventive effect against the Moscow cooties which seem to be frightened away by such unusual luxury.

### MICHIGAN IS FACING ACUTE COAL SHORTAGE

Prices Soaring as State Considers Controlling Mines.

LANSING, Mich., July 22 (Associated Press).—While further action toward State control of the Michigan coal mines is in abeyance pending the reply of striking miners to Gov. Greenback's proposals that they return to work, the coal shortage in Michigan rapidly is becoming more acute. State officials said to-day.

Prices several times as high as those offered a few months ago were reported and even then the State scouts reported no success in locating coal in sufficient quantities to relieve the shortage to any extent.

State officials believe there would be little delay by the Governor, following his conference with the miners in Saginaw Monday, in formulating a plan for attempting to produce coal in the mines. In case there is no agreement prior to that time that will permit resumption of operations under private control, it appears practically certain the Governor will order State control of the mines without awaiting further word from either Washington or the miners.

### Lift Alien Ban for Boy to See Dying Father

IMMIGRATION regulations were let down temporarily yesterday in the case of Andrew D'Orr, aged 15, who was aboard the French Line steamship *France*, to visit his father, Louis D'Orr, a sugar planter, who is dying at Madison, N. J. The boy, although a French subject and of an age requiring a guardian, was permitted to land without going through the formalities by a special board of inquiry which convened aboard the liner before it docked upon orders from Byron Uhl, Assistant Commissioner of Immigration at Ellis Island. The boy was rushed to the New Jersey home.

### HULL SEEKING AID OF G. O. P. CARPERS

Democratic National Chairman Hopes to Corral Week Knead Voters.

Herbert C. Pell, Jr., chairman of the Democratic State Committee, and Frederick A. Willis, chairman of the State Finance Committee yesterday received a letter from Cordell Hull, chairman of the Democratic National Committee, endorsing the State organization's plan to raise a campaign fund for the propagation of information to malcontents in the "disintegrating Republican party."

The national chairman said he was urging State leaders throughout the country to adopt the plan of the New York organization. The letter follows in part:

"The Republican party is rapidly disintegrating through total lack of constructive leadership. Its members are deserting it by thousands because in this critical period in the nation's life it has shown a complete absence of ability to serve the people."

"With these thoughts in mind the people are turning to the polls in November. They are going to express their opinion of the manner in which the Republican party has served them since the beginning of 1921, and they are clamoring for information."

"It is the duty of the Democratic party to receive them into its fold, and upon the leaders of that party, national and State, rests the responsibility of showing them the path."

### PLANS FOR FUNDING FRENCH DEBT ADVANCE

Preliminaries to Negotiations Virtually Complete.

WASHINGTON, July 22.—Preliminary steps toward negotiations for the funding of the French war debt to this country were virtually completed to-day at a conference of Under Secretary Gilbert of the Treasury with Jean V. Parmentier, Director of Finance of the French Treasury.

Treasury officials said after the conference that the American Debt Funding Commission would meet late next week to discuss with Mr. Parmentier the data on the financial condition of France, presented to-day.

Treasury experts meanwhile will study the French statements, which analyze the French budgets of past and future years and the French circulation situation, as well as giving the trend of French exports and imports and general commerce. From these statements the Treasury expects to be able to judge the position of France toward liquidation of its debts.

### STEWARD'S DISMISSAL CANCELS CLUB DANCE

Other Bell Island Affairs Also Postponed.

Special Dispatch to THE NEW YORK HERALD. NEWARK, Conn., July 22.—The fashionable Bell Island Club membership list of which includes scores of prominent New Yorkers, is in a somewhat distressed state because of the dismissal of William C. Simmons, the steward. The club social affairs, including the big midsummer barn dance, one of the most important events of the season, scheduled for to-night, had to be called off. Officers of the club admitted Simmons's summary dismissal. Arthur Leonard, a New York youth; Arnold McLachlan and Ellsworth Smith are performing the steward's duties temporarily.

### PORTO RICO GREETS ADMIRAL

SAN JUAN, July 22 (Associated Press).—Rear Admiral Newton A. McCully and his staff were welcomed as a luncheon to-day by Gov. E. Monto Rely, followed by a military review. A special session of the Legislature has been convened to welcome the Americans. Admiral McCully is the first Admiral to visit Porto Rico in twenty years. He was the guest last evening of the Chamber of Commerce, when the official welcome of the island was tendered to him.

## FRANCE MAY GRANT LONG MORATORIUM

Continued from First Page.

would increase the latter nation's lack of self-reliance and that a portion must be used to get any reduced schedule of payment, instead of abolishing them until 1925. The experts are certain that it \$500,000,000 only is used to strengthen Germany's finances, the stabilization of the mark can be taken as granted, without endangering the economic situation in any country.

Thus, if the bankers can find \$1,000,000,000, the French are reported as willing to agree that half shall go to Germany, whereupon the schedule of cash payments would be cut to meet the remainder, relying upon the Wiesbaden accord to fill the urgent needs of the devastated regions. Mr. Lloyd George, however, is certain of Italy's support in the Reparations Commission of the premise that Germany's needs are more imperative and the exterior aid for Germany must not be touched. But, in answer to this, the French are arguing that if the reparations total is reduced, that in itself will tend to restore Germany's balance and make up for the cash turned into the reparations account.

International Viewpoint.

According to an authority THE NEW YORK HERALD correspondent talked with this morning on the French decision, the time has come again to approach the problem from an international viewpoint. This was intended to serve two purposes: First, to quiet the campaign which has been going on in various election districts over the failure of suc-

cessive Governments to bring in any help for the French budget, and second, to regain the confidence of influential Americans, which is recognized as having been lost owing to the feeling that France's intransigence in the reparations issue is the first step to military sanctions.

Numerous highly placed Frenchmen, who recently have returned from the United States, all have brought back the same report—that of American regret because France and England have not got together to solve the problems on a business basis. As a result, the air is full of suggestions that France cancel the debts owed her by the Allies, as proof of her willingness to cooperate in lightening Europe's burden. But nothing in this line can be expected until M. Poincaré and Mr. Lloyd George find common ground for action upon the bigger claims.

Hope is freely expressed for a settlement before the end of the summer, that the bankers may begin their work early in September. For, if this is accomplished, France's bloc national will have a valuable program with which to confront the electors in the autumn canton campaigns, instead of admission of failure, which would necessitate not only internal loans, but also increased taxation. And the Minister of Finance has steadfastly insisted that it is necessary to avoid the latter.

Details of Terms.

PARIS, July 22 (Associated Press).—Germany has formally accepted the demands of the Allied Committee on Guaranties, which were presented at Berlin last Tuesday. In a letter the Reparations Commission received to-day Chancellor Brüning stated that Germany, after profound deliberation, had decided to accept on condition that a moratorium be granted and that the decision would constitute the final settlement of the questions of reparations.

Without challenging the sovereignty of the State.

The conditions, the letter points out, place a heavy load upon the German Government, and their acceptance is only agreed to by the Government and the Parliament on the theory that the forthcoming decision on the reparations question will constitute a definite settlement of the chief financial questions which have been the subject of negotiations between the Committee on Guaranties and the German Government.

Penalties, the maximum of which is two years in prison and a fine of 1,000,000 marks, are provided for against persons and firms guilty of violating the measures adopted by the German Government against unlawful export of capital. These measures were satisfactory to the Committee on Guaranties.

Special Department.

A special department in the Ministry of Finance is to be created. In it the committee will be represented and must investigate all requests for transfer of capital abroad before approval is made by it. Only persons in possession of special authorization from this department may engage in export trade.

All export trade necessitating the transfer of capital will go through the Chamber of Commerce, the members of which will deal directly with the special department supervising the export of capital.

The plan provides for the accrediting of the committees' representatives to practically all the departments of the German Ministry of Finance, over which they will exercise personal supervision.

The bureau dealing with receipts and expenditures, the movement of capital abroad and questions relating to the publication of financial and economic statistics will be especially controlled.

Germany agrees to furnish the committee with monthly statements show-

ing the progress in the collection of taxes, including the income tax. The percentage assessed on private business, daily statements of the amount of the floating debt and statements every ten days setting forth the exact situation of the Government's finances are documents which the German Government has promised faithfully to make.

Monthly reports of the receipts from customs, taxes, the post offices, the telegraphs and the railroads, supplemented monthly by a report on the situation of the floating debt are further requirements which Germany has agreed to.

The German Ministry of Finance must also submit to the committee quarterly statements of the receipts and expenditures under the current budget. Finally yearly the recapitulation of the receipts and expenditures of the national budget after the annual settlement and balancing of the German Government accounts must be furnished.

The majority of the opinion in French financial circles expresses satisfaction with the plan adopted. A few extremists desire a more stringent control, but generally it is thought that that would be more difficult to exercise without prejudicing the sovereignty of the State.

SACCO-VANZETTI PLEA FILED.

DEDHAM, Mass., July 22.—The third supplementary motion for a new trial for Nicola Sacco and Bartolomeo Vanzetti, convicted of the murder of a paymaster and his guard at South Braintree in 1920, was filed to-day in the Norfolk County Superior Court.

The motion, details of which were made public by counsel for the defendants earlier in the week, attacks the testimony of Carlos R. Goodridge, an identification witness, on the ground that he was a former convict and that he committed perjury at the trial in theft his real name was Erasmus C. Whitney.
